## THE CYCLING

Mallorca is without doubt one of Europe's top cycling destinations - the roads are top quality, the sun is (nearly always!) shining, the cake is awesome, and finally (and most importantly!) it has a collection of THE BEST rides - there's mountains, scenic flats, sea views, picturesque towns and stunning landscapes to choose from.

The 2026 tour is based on a three base itinerary. This trip starts with 2 nights in the south east of Mallorca in Colonia Sant Jordi. From here there's some superb riding into the backroads of Mallorca, beautiful coastal routes, and climbs up to monasteries with incredible panoramic views.

You'll then transition to Port Soller in the heart of the Tramuntana Mountain Range, before heading to Alcudia in the north of the island. Over the next few days, you'll have the opportunity to tackle some of Mallorca's most famous rides including the Sa Calobra climb, Formentor Lighthouse ride and many more!

We've put together a superb collection of rides for you, including some of the iconic Mallorca routes, and some roads you haven't done before! There's something in there for everyone!
